

Ohio Child Licensing and Quality System

OCLQS

OCLQS is the new self-service licensing system all Ohio child care providers use to manage the business functions related to their license. Providers use OCLQS to apply for a license, to request changes to their license, and to register for Step Up To Quality (SUTQ), Ohio's five-star quality rating and improvement system.

OCLQS allows programs to create an account to manage some of the information that is displayed on the ODJFS website. It also requires programs to provide all of the necessary information/documents prior to submitting a licensing application, change request or SUTQ registration. To access the OCLQS Portal visit <https://oclqs.force.com>.

For information on how to use OCLQS, visit www.EarlyChildhoodOhio.org

For assistance with OCLQS call
